

HO-117  
Poverty Discovered  
Frederick Road (MD 144)  
east of Cooksville

Michael O. Bourne listed this house, having had it located on a map by Mr. & Mrs. E.W. Gramkow on 7/21/70. The tax map at the time listed the property as owned by William J. Bryson (Tax Map # 14)

The house appears to be built of brick, three bays wide and two stories high, with flush brick chimneys at either end, and with two additions on the left side. Both of frame, the additions are two bays wide each. All three sections have a door in the left bay. All windows are 6/6, including the one in the dormer in the wing farthest to the left. The wings get progressively shorter, although to call the house a 'telescope' would be stretching things.

There is a small log outbuilding on the property. Between the logs may be seen mud and stone chinking.
